

Perfect Apparels

Corporate Information

Perfect apparels is the big hub for Bangladeshi knits export. The company has started with the sole export to knitted garments to Europe and extended it is reach to USA and Canada. Our products are for Men, Women, Boys, Girls and Kids. The export capability of the company is ably supported by its progressive attitude that has made it to have a vertical set up of its own knitting factories and manufacturing division, which have the capability to meet any level of demand from our buyers and thus creating a high degree of credibility to the company in international market. All these produces are subject through checking by the company's quality assurance department personal. The company mission is to enhance the customers satisfaction by providing quality garments produce by adopting better environmental practices and complying with best services standards. Perfect Fashions also possess a highly efficient communication system which enables it to interact with its clients spread around the world efficiently and effectively.
